

CPFilms Becomes An ENERGY STAR® Partner

[Martinsville, VA] September 1, 2003 – CPFilms recently became a Service and Product Provider within the U.S. Environmental Protection Agency / U.S. Department of Energy ENERGY STAR Program. This partnership enables CPFilms (www.cpfilms.com) to highlight and promote the energy-saving advantages of our energy-control window film and window shade products utilizing the many tools available from ENERGY STAR for homes and businesses, such as the Home Energy Advisor, the Energy Portfolio Manager, and the Financial Value Calculator. These tools, and more information about energy-efficient window products and the ENERGY STAR Program, are available at www.energystar.gov. The window film and shade products offered world-wide by CPFilms provide home and business owners a key tool to enable them to reduce energy use and costs and help business owners move towards obtaining the Energy Star Label for their building.

CPFilms manufactures and distributes Vista® and LLumar® professionally installed energy-control window films, Gila® Do-It-Yourself window films, and Halcyon™ Solar Shades, from our Martinsville, Virginia headquarters, with additional manufacturing capabilities in the United Kingdom. CPFilms, is the largest producer of window films and film components in the world with distinction in the areas of research and technology, manufacturing excellence, global distribution and dedicated customer service. CPFilms is an ISO 9001 certified company. CPFilms is a unit of Solutia, Inc., a world-class applied chemistry company, headquartered in St. Louis, Missouri (www.solutia.com).

ENERGY STAR connects you with the resources you need to implement a successful energy management strategy for your business or to help you save energy and money at home. Technical guidance, procurement policies, demonstrated best practices, communications resources and awards will help distinguish your organization as an environmental steward. For home owners, the ENERGY STAR web site provides numerous examples of energy-saving opportunities including costs and expected savings.

For more information about the energy-saving window products offered by CPFilms, see our web site www.cpfilms.com or call 276-627-3000.
